

Name: _____

Build a Nest Challenge

Your goal is to build a bird nest using found materials. The nest must work and safely hold an 'egg' with out it falling through. You may not use any glue or tape.

There are many different ways to complete this challenge, so be creative!

Do you think you can build a bird's nest?

Design of nest:

What materials will you need?

What type of nest will you build?

Cup Saucer pendant mound platform cavity spherical scrape adherent

What the nest actually looked like:
